Attention Mr. Donald C. Norseth

Dear Mr. Norseth:

In accordance with our conversation of May 27th, 1963, we have met with Superintendent Leroy Smith in accordance with your request that we have Mr. Smith send you an estimate of the total amount of water used by the South Cache Water Users Association during the year 1962 irrigation season, in order that you may revise the figures of the Commissioner, which were found to be erroneous.

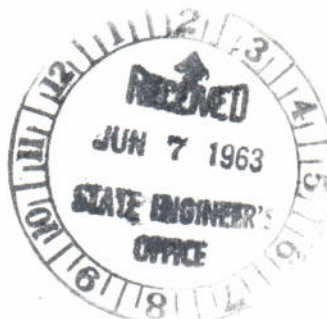

Superintendent Smith's estimate is 12,790 ac.ft., which includes 1754 ac.ft., charged to the Hyrum Little Reeder Canal. We believe this 1754 ac.ft., should be charged to the Hyrum Irrigation Company and not to the South Cache Water Users Association.

We trust that this is the information you asked for and that you will therefore revise your figures and send us a corrected assessment notice.

We are enclosing herewith our check #652 in the amount of \$502.57, with the understanding that a refund will be forwarded to us.

Respectfully yours,

Wm. P. Leatham
President
